School Enrollment Hits New High

More than 1200 pupils have enrolled in the three Canyon schools to set a new record for students in the system.

The enrollment figures went to 1209 Tuesday morning, the second day of classes. On Friday the enrollment figure was 1189, approximately 50 more than were in school last May at the end of the last term.

The high school is the only school which showed a drop in registrations, from 312 on Sept. 15, 1956, to 306 Tuesday. However, the first of school figure from last year was 305 in high school.

In a letter to the school board, Supt. Joe Gibson gave the enrollment figures and compared them with figures from Sept. 15, 1956, and 1955. The 1955 enrollment was 1098, the 1956 was 1132 and this year's was 1209.

The elementary school had 586 pupils Tuesday morning. The 1956 figure was 530 and the 1955 was 516.

In junior high there were 317 in school Tuesday. In 1956 there were 290 and in 1955 there were 272. The high school figures were 306 this year, 312 in 1956 and 310 in 1955.

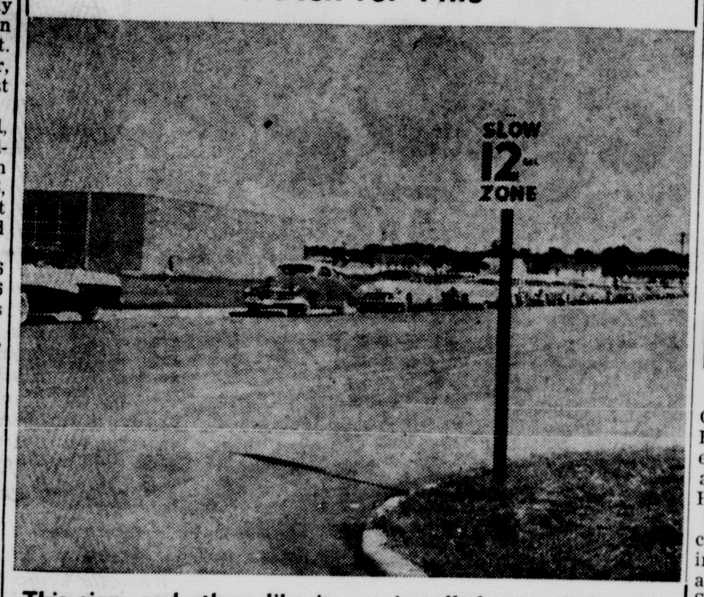
The greatest increase came in the sixth grade, which had a total of 98 Tuesday. The class, which was the fifth grade then, had 78 last year and in 1955, when it was the fourth grade, had 86.

In addition to the swelled totals in the classrooms, the cafeterias have been doing a rush business. The elementary cafeteria served 556 lunches Tuesday with additional tables and chairs set up in the all-purpose room across the hall from the cafeteria. The junior-senior high cafeteria served 304 lunches.

In the letter, which was written after school Friday, Supt. Gibson estimated that another 50 children would probably enroll by Sept. 15, when the figures were taken from the previous years. On the second day of school Tuesday, the enrollment had increased 20.

By grades, the enrollment Tuesday was: First grade, 116; second grade, 113; third grade, 106; fourth grade, 118; fifth grade, 133; elementary school total, 586; sixth grade, 99; seventh grade, 98; eighth grade, 120; junior high total, 317; freshmen, 83; sophomores, 85; juniors, 67; seniors, 71; high school total, 306.

Watch for This



This sign, and others like it, are installed around the elementary school as an aid to cautious driving. With cars moving that slow, children will have a chance to grow up to be adults.

Quarterback Club To Meet Monday

A meeting of the Canyon Quarterback Club has been called for 8 p. m. Monday in the West Texas State Fieldhouse by President Dutch Cleavinger.

A program which will cover the prospects of the WT team, a critique of the Slaton-Canyon game Friday and the outlook for the Hereford-Canyon game, will also include election of officers for the coming year.

Last Monday, the club had a meeting which was called too late to allow notification of all of the members. It had been planned to have the election of officers at that time, but not enough members were present.

Canyon High Coach Bill Davis gave the club the lineup of the Eagles and explained a scout report on Slaton.

Highway Patrol Promotes Dan Dowdy

Highway Patrolman Dan Dowdy, who has been stationed in Canyon for the past several years, was notified last weekend that he had been promoted to sergeant.

Dowdy was the only successful patrolman from this district in the recent examinations for sergeant. He was notified of his promotion by a letter from Col. Homer Garrison, head of the Texas Department of Public Safety.

The letter said that Dowdy would be assigned, but did not state where his new assignment would be. Under the new organization setup of the DPS, the sergeant in charge of the patrolmen stationed in Canyon is stationed in Hereford.

Youngster Hurt In Friday Wreck

Kelley Tinsley, 5, son of Randall County Deputy Sheriff and Mrs. Ray Tinsley, was injured Friday evening in a car-bicycle collision and was released from Neblett Hospital Saturday morning.

The youngster suffered a broken collar bone and bruises and cuts in the wreck. Kelley was riding a bicycle at the intersection of Second Avenue and 20th Street when he was struck by a truck.

The driver of the truck, Albert Adams, 48, of Sunray told investigating officers he was enroute to Sunray and was driving on Second Avenue to miss the detour on Highway 87. The accident occurred about 7 p. m.

Patrolman Resigns From City Police

Patrolman Jim Gillespie has resigned from the Canyon police force to accept private employment in Amarillo, Chief Ralph Pray has announced.

No successor to Gillespie has been selected. His resignation was effective Sept. 1.

Agent Requests Produce Samples

A booth to display Randall County agricultural products has been reserved during the Tri-State Fair, Sept. 16-21. John Brazzil, county agent, is in charge of the booth and will arrange the display.

Brazzil said he needed the help of county producers in order to have samples for the exhibit. He is requesting samples of excellent field crops, fruits and vegetable crops.

The products he needs must be able to be kept a few days after gathering so he can have time to build the display on Sept. 14.

"Randall County people who have good products to help prove our agricultural superiority are asked to contact me soon," Brazzil said.

Association Gives Hearts

The Randall County Heart Association began a program of education on the heart and heart diseases by presenting two plastic models of the heart to Canyon High School and the Umbarger school. Raymond Batenhorst, left, president of the Umbarger School Board, and John Robert Wheelock, president of the Canyon High Science Club, received the models, which cost $50 each, from Mrs. Thornton Dewey, Heart Association chairman. The association plans a program of education through the schools, doctors and civic organizations.

SWPS To Have New Offices in November

Downtown Canyon is due to have a new look sometime this fall with the offices of Southwestern Public Service Company due to have a full-scale face lifting.

"A modern, newly designed and completely renovated office will greet our customers sometime in November," Truett Hull, manager for the Southwestern Public Service Company, has announced. "The remodeled office is in line with company policy to stay ahead of the requirements of the area we serve; we do this with our offices, as well as with our equipment for making and delivering power to our customers," Hull said.

"Canyon is a growing community and, as a good citizen, we want our office to be a credit to the city, and so we are going to do an extensive remodeling job, said Hull.

"Saturday we moved west across the alley, into an area of the Thompson Hardware Company where we have a temporary office pending completion of the remodeling job on our old office," said Hull.

The present office, when it is completed, will have a completely new front, new floor covering, new ceiling, plumbing brought up-to-date as well as added electrical wiring to take care of modern needs.

"A feature of the new office will be a five ton 'heat pump.' This amazing unit, which heats as well as cools, is completely all-electric and is the newest and most efficient heating and cooling unit on the market today," said Hull.

"Also, our new office will have a complete, modern, all-electric kitchen for use in demonstrating the newest in electrical appliances to our customers. We will also have installed several types of the latest in commercial lighting so that our business friends can see, first hand, exactly how their stores and businesses might be improved with proper lighting," Hull said.

Hull concluded, "We will do everything possible to make things as convenient as possible for our customers while we are in our temporary headquarters, and we ask them to bear with us during this period."

Slaton Has Weight Advantage; Tickets To Be On Sale Thursday

Football season opens in Canyon Friday night with the bi-district champion Canyon Eagles pitted against the Slaton Tigers of District 2-AA in a game that begins at 8 p. m. in Buffalo Stadium. Tickets for the game will go on sale Thursday morning at Canyon Drug and The Pharmacy. Tickets for all the games of the season, both at home and away, will be on sale each Thursday morning in the two stores. Cost of home-game tickets will be $1 for adults and 50 cents for children.

☆ ☆ ☆

The Eagles, under a new head coach, Bill Davis, and assistant coach, Joe Brooks, will go into the game with Slaton with a slight weight disadvantage in the line and a slight advantage in the backfield.

The Eagles' starting line averages 175 pounds while the Tigers' line averages 183. The Canyon backfield averages 164 and the Slaton average is 160 or 156, according to which quarterback starts.

Both teams have been working out since Aug. 26. The Eagles have had the advantage of one practice scrimmage while no information is available on the Slaton practice.

In a scrimmage with Clovis High School in Friona Saturday, the Eagles smashed both the Clovis offense and defense. The Eagles scored four touchdowns to one for Clovis in a non-regulation game with no kickoffs, no punts and no extra points. Each team kept the ball for 15 minutes regardless of how the play went.

The Eagles had the ball for 31 plays and attempted two passes, neither of which was completed. In the 29 running plays, the Eagles made a total of 280 yards and would have made 15 first downs. Canyon would have lost the ball on downs only once if first downs had been kept.

Clovis had the ball for 42 plays and threw four passes, completing one for four yards, having one intercepted and having two which were incomplete. Canyon's A. L. Pruett intercepted the pass and ran back 22 yards before being tackled.

In the 38 running plays, Clovis made a total of only 79 yards, including a 27-yard touchdown run. The team would have made only three first downs and would have lost the ball eight times if first downs had been kept.

In a regulation high school game, each team normally has the ball for between 40 and 60 plays depending on how fast the teams go into action on each down.

In the scrimmage with Clovis, halfback Leonard Miller made 108 yards in 10 plays and scored two touchdowns—one on a 42-yard run and the other on a five-yard run; fullback Eddy Boydstun made 117 yards in 11 plays and scored one touchdown—a 54-yard run after taking a lateral from Miller who had run seven yards before being stopped.

Halfback Ronnie Huyck made 25 yards in three plays and made one touchdown, a 19-yard run after taking a lateral from Quarterback Pruett who had run four yards before being stopped. Pruett picked up 20 yards in three plays and halfback Gary Humphries, who substituted for Huyck, made six yards in two plays.

The probable lineup for Slaton includes McClanahan, 165, and Limmer, 180, ends; Gordon, 204, and Gentry, 195, tackles; Tomlinson, 170, and Hogue, 170, guards; Blissard, 195, center; Thomas, 155, and Jones, 145, halfbacks; Franko, 185, fullback; and either Corley, 155, or Sikes, 145, at quarterback.

Canyon's starting lineup is expected to be Roy Hunter, 165, and Dwane Ledbetter, 160, ends; Dory Funk, 190, and Richard Burgess, 225, tackles; Alan Hanks, 145, and Roy Harris, 160, guards; John Robert Wheelock, 180, center; A. L. Pruett, 155, quarterback; Ronnie Huyck, 142, and Leonard Miller, 170, halfbacks; and Eddy Boydstun, 190, fullback.

In a scout report made up from the Spur-Slaton game last year and from talks with other coaches, Head Coach Bill Davis said that Slaton is on the rebound from some bad years. Slaton won three and lost seven games last year in the district which included Spur, Lockney and Abernathy.

Slaton lost a tackle, fullback and both guards from their 1956 team. The Tigers used two quarterbacks during 1956 and both are expected to alternate this year. Slaton's team threw around 25 passes per game during the last season, and have a fairly good running attack, according to the report.

The Slaton defense last year was usually an inside 5-4 or a 6-3, according to the report.

Canyon Eagle Quarterback A. L. Pruett barks signals to receive the ball from center John Robert Wheelock and to start the 1957 football season. The Eagles meet the Slaton Tigers in Buffalo Stadium at 8 p. m. Friday.

President Names Harrison To Head History Department at West Texas

Dr. Lowell H. Harrison, member of the faculty since 1952, has been named head of the history department at West Texas State College, according to President James P. Cornette.

Dr. Harrison, who has also been promoted to full professor, succeeds Dr. L. F. Sheffy, who headed the department since 1918.

A Fulbright Scholar in 1951-52, Dr. Harrison studied at the University of London School of Economics, where he specialized in European and British history and government. While in England, he lectured on various phases of the American system of government.

Dr. Harrison joined the WTSC faculty as associate professor of government and moved to the history department in 1956. He has been active in campus affairs

Watermelon by the Ton

Sliced watermelon filled a plank table nearly 100 feet long at the beginning of the watermelon feast Monday afternoon, and before the feed was over, it had been emptied and refilled several times. More than 1000 county citizens came to eat, and they consumed 7510 pounds of watermelon. The watermelons were purchased by Hosea Foster, Bob Bellah and Paul Lindsey and were served by members of the chamber of commerce.

Capt. and Mrs. James T. Fulton and children of Oklahoma City are visiting in the homes of Carl Rogers, Doris Gillham, Alfred Hamblen and Harry Hamblen of Wayside. Captain Fulton is attending the University of Oklahoma.

Time Flies on Leathern Wings

It seems like not time at all since the youngsters of Randall County began throwing horsehide balls back and forth while trying out for places on the four teams of the Little League association—yet that was back before school was out for the summer.

And here we are with another school term already started, and an older bunch of boys are throwing another ball, this one made of cowhide and called a pigskin. Where went the summer?

Parents have begun to look about themselves, trying to find the lost months; while the children, suppressing their natural excitement, profess to be sorry that school has come again. Where did the summer go?

Sports fans, still discussing the Little League season and still watching the major league baseball games on television, are waiting with eager anticipation for the first football game of the season. The high school football team has been working out for more than a week, and the Buffs started this week, too, even though the days are hot and not at all what one expects with the beginning of autumn. What happened to summer?

Don't you suppose the summer flew away on the pitches thrown by the young Little Leaguers? Did little bits of the summer escape when a baseball was knocked over the centerfield fence for a four-bagger? And didn't the last bit of summer sneak out of our sight when the high school football team began tossing the ball back and forth among themselves?

Of course that's where it went. The summer was so busy. There were things happening that kept the day-by-day passage of time hidden under the press of day-by-day happenings.

The summer flew away on leathern wings.

Why Is It So?

Almost anyone in the newspaper business has had experience similar to the one we had last month with the schedule of activities surrounding the opening of school. And none can give any good reason why it happens.

You see, we ran a story at the first of the month detailing the plans for enrollment. And there was a mistake in it—we had some of the children still enrolling the same day classes were actually scheduled to begin.

So the next week we fixed up a schedule to publish and ran it. In the schedule we got all the registration dates correct, but we had the Sept. 2 holiday listed as the Tri-State Fair holiday rather than the Labor Day holiday.

The next week, we got the name of the holiday changed, but we have been afraid to look and see what other mistakes might have been made.

We think maybe there is an invisible presence in newspaper offices that get into things and mess them up. The presence is somewhat the same as the famous Gremlin of World War II, only it's an older presence that has been around for centuries.

All printers know about type lice that get into type set on machines and louse up the faces of the letters, and we think maybe our invisible presence is at least a first cousin of the type lice. Whatever the presence is, we had it around during August, that's for sure.

Promote Another

Elevate one more Canyon citizen to the ranks of those who are interested in knowing what happens to the money they pay to local government in the form of taxes.

Kenneth Waugh took the couple of hours necessary to attend the public hearing on the 1957-58 budget of the Canyon Independent School District held two weeks ago. Mr. Waugh was welcomed practically with opened arms and was treated as an honored guest.

He was given a copy of the proposed budget, and followed the board through it item by item. He asked, at one point, if the school could save any money by changing its plan of insurance from three year policies expiring at a common date to three year policies one-third of which expire each year.

The board explained that the present plan had been set up for the school by the association of insurance agents in Canyon as the most economical and practical, but the board promised to look into his question further.

Mr. Waugh complimented the board on their speedy handling of business with a minimum of confusion and discussion of outside subjects.

And by attending the session, he joined the *Canyon News* hall of outstanding citizens. So far, there are three members—W. A. Warren and J. Evetts Haley, who attended the city's budget hearing this year, and Mr. Waugh.

Others have a chance to be promoted this year. The county's budget hearing has been set for 10 a. m. Sept. 9 in the commissioners courtroom in the county jail building. Everyone is invited.

What Our Neighbors Say . . .

Scissor Snippings

Ernest Joiner in the Ralls Banner: "Crosby county residents have a tendency to believe a county commissioner exists for the purpose of grading roads so farmers can get to town, and to do other jobs of primary interest to farmers. As a result of this thinking, most commissioners are elected from rural areas. The truth is, obviously, that commissioners represent residents of towns as well as country — or should. What brings this up, about 9/10 of all road work done at the direction of commissioners takes place along country roads, where it benefits a handfull of voters. Town residents seldom, if ever, get any road work done for them, and they continue to jolt their eyeteeth out over impassable streets. If a commissioner can order his maintainer onto a rural road to make things pleasant for a few farmers, why can't the same maintainer be eased into town for street work that benefits thousands of people? Ragsdale Davis has come nearer working equally for rural and urban constituents than have some others. Recently, according to reports, he has agreed to maintain city streets of Ralls if the city would pay the cost of an operator, plus a charge for machinery depreciation. We cannot recall that farmers are asked to pay an operator's wages, or pay for maintainer expenses for getting their roads dragged and graded. Residents of Ralls pay more taxes into county coffers than do farmers. City property is all out of proportion to farm property in the matter of valuations. One commissioner, asked why this inequality continues to exist, stated 'that's the way it's always been.' Well, we can't buy that line of reasoning. Ralls citizens own more cars and pay more license fees for the upkeep of roads than all rural residents of the county combined, and they're danged shore entitled to a fair share of the services that tax money buys. Town dwellers of Ralls, Crosbyton and Lorenzo should band together to see that this kind of business comes to a screeching halt. If it doesn't, the three towns might think about electing commissioners from town instead of the farm. Maybe we can get a little more consideration that way."

☆ ☆ ☆

Jimmie Gillentine in the Hereford Brand: "Hereford must have been a jinx for circuses back in the old days. At least, many of the old timers used to talk about the time that Jim Witherspoon filed an attachment on an itinerant circus—and wound up with all of the animals on his hands. They say that he finally lodged them along the banks of Tierra Blanca Creek. This, of course, was a lot of fun for the kids of that day and time—but it was a nightmare to the young lawyer who found himself responsible for feeding a bunch of lions, wolves and other animals. They say that Jim bought every old nag in this part of the country to keep them going. The worst thing, though, was the fact that he couldn't shake loose from them. No one, it seems, had much use for an extra lion or two around the house back during the depression days.

"Finally the City of Clovis, N. M., was convinced that a zoo would be instructive and educational. And that, Boys and Girls, is how the Clovis Municipal Zoo got its start. At least, according to grapevine rumors in the Hereford area, since 1932-33.

☆ ☆ ☆

Harold Hudson in the Ochiltree County Herald (Perryton): "We took another look at the new elementary school this week and it is a dandy. We have Jim starting to school this year and he is all enthused. We told him that this is a far cry from our first grade, which we spent in a one-room country school at Holt, south of Spearman. Mother was the teacher. We didn't even have indoor plumbing. But we suspect our tales of 'pioneer' school days in the 1920's impresses him about as much as our father's story about walking five miles to school when he was a boy. Children just naturally aren't impressed by their parent's impressive stories."

☆ ☆ ☆

James H. Russell in the Belton Journal: "A Belton bachelor comments that it isn't so important for a girl to have much upstairs, as long as she has a beautiful stairway . . . or maybe he meant stareway.

"My observation is that some girls are both ignorant and shapely, but none are ignorant of the fact that they are shapely.

"(You could tell from the beginning that this column would not be intellectual . . . what do you expect for $2.00 a year, Benjamin Franklin?)"

☆ ☆ ☆

Betty Williams in the Lamb County Leader (Littlefield): "Sam took Will Rogers' words literally when he said 'Life Begins at 40.' He reached that goal Tuesday . . . and has been going around with a gleam in his eye . . . waiting for the fun to start."

AND NOT A "SOLE" AROUND

"Do you know what one little toe said to the other little toe?"

"No, what?"

"Don't look now, but I think we are being followed by a couple of heels!"

I GIVE YOU TEXAS

By BOYCE HOUSE

My name has been signed to quite a few news stories in my time. But the biggest thrill was the first time that "By Boyce House" appeared in print.

An old hotel overlooking Court Square in Memphis was going to be torn down, in 1916, and the city editor assigned the staff's newest member, just graduated from high school, to do a feature story. The Gaston was established by a naturalized citizen who was born in France, made a fortune and gave much of it to the people of the city. A hospital and a park were among his gifts.

The hotel had much of the atmosphere of the Old World. Paintings, furniture, draperies gave the lobby distinction. Many famous people—notably of the theatrical profession—had been guests during the hotel's long history.

I turned in an article about a column long and the first that I knew that the city editor had attached my name as author was when Al Wilson, assistant sports editor, said, "Congratulations on the by-line." (I had never even heard the term till then).

Court Square was, and is, inhabited by pigeons and squirrels, as well as by loafers and other visitors. The park is in the center of downtown Memphis. The pigeons and squirrels will flock around anyone who provides himself with a sack of peanuts.

Many years ago, when I lived in that city, a park policeman threw a club at a squirrel. I don't remember why he did it. Perhaps the creature was frightening a toddler. The squirrel received a broken leg. The officer had done an unthoughtful act and should have been punished; a few days without pay would have been adequate.

But organizations of well-meaning ladies got busy and, in the name of humaneness, demanded that the policemen be fired. That would teach him to be kind to animals. So he was discharged. The fact that he was out of work and had a wife and children dependent on him was of no concern to the good ladies.

Hypnotism, when I was a lad, was scoffed at as a fake. Now, it is used in surgery and dentistry.

Letter carriers' uniforms are a 50-50 blend of the Union Blue and Confederate Gray.

EMBARRASSING MOMENT

A breakfast guest at the White House during the Coolidge Administration was astonished to see the President pour his beverage from cup to saucer.

Not to be outdone, the guest followed suit.

The President added cream and sugar in the saucer, and tasted the mixture with his spoon.

The guest was about to do likewise when Mr. Coolidge set the saucer on the floor for the dog.

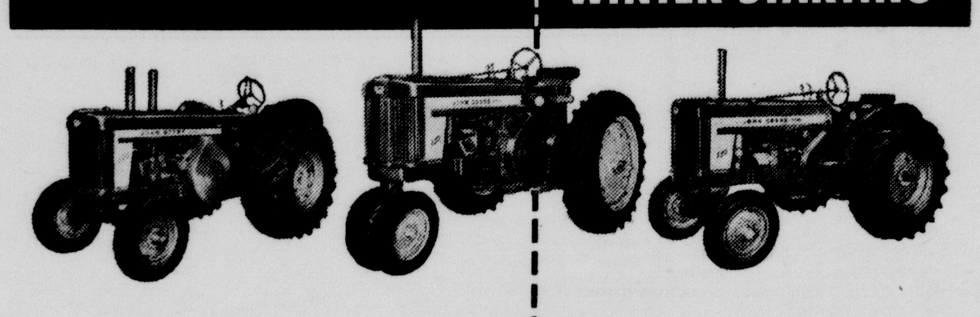
JOHN DEERE DIESELS OFFER YOU POSITIVE WINTER STARTING



If you've had experience with other *Diesels,* especially when the temperature drops to zero and below, you'll really appreciate the husky V-4 starting engine featured on the new John Deere "720" and "820" *Diesel* Tractors. This engine furnishes unfailing power to crank the Diesel engine, and also performs three other important functions for cold weather starting. Through connected cooling systems, water in the main engine is warmed during the starting cycle. Exhaust heat from the starting engine is used to warm incoming air for easier combustion. Finally, cranking the main engine operates the oil pump, prelubricating the Diesel. Stop in soon and let us tell you the many other features that keep John Deere *Diesel* Tractors head and shoulders above the field.

By VERN SANFORD
Texas Press Association

New faces, new jobs enter the Capitol scene as laws passed in the last Legislative session go into effect.

A consolidated Texas Securities Board swung into action with a statement by newly appointed Chairman Maurice Bullock of Fort Stockton that "all doubts (about securities issues) will be resolved in favor of the buying public."

Also appointed to the board by Gov. Price Daniel were Jay A. Phillips of Houston and Pete Rodes of Emory. An attorney, Bullock is former president of the State Bar of Texas. Phillips is a certified public accountant, former president of the Texas Society of CPAs and present chairman of the State Board of Public Accountancy. Rodes is president of the First National Bank in Emory.

Board members selected William King to be acting securities commissioner, a full-time, $10,000-a-year job. He is a former assistant attorney general and had charge of securities in the secretary of state's office.

Approving or disapproving proposed issues of both general and insurance securities will constitute the prime duties of the new agency. Formerly, these functions were divided between the Insurance Department and Secretary of State's office. It also will supervise the licensing of securities dealers and salesmen.

Governor Daniel called the new law an "outstanding measure for protecting the public against fraud and swindling."

Youth Council

Frank M. Wilson of Waco will be chairman of the new Texas Youth Council.

Other members named by Daniel are Louis Henna of Round Rock and Robert Kneebone of Houston.

New agency replaces the old Youth Development Council. It will have charge of the three state correctional schools for young people and the Corsicana State Home, the Waco State Home, and the Blind, Deaf and Orphan School at Waco.

Wilson is a Waco attorney and instructor at Baylor University School of Law. Henna, a member of the old Youth Council, was one of the founders of the Baptist Children's Home in Round Rock. A banker, Kneebone has been active in youth work in Houston.

School Study Panel

Six legislators and two private citizens are early appointees to a new committee to study the growth problems of Texas public schools.

Named by Lt. Gov. Ben Ramsey were Sens. George Parkhouse of Dallas, A. M. Aikin Jr. of Paris and Floyd Bradshaw of Weatherford plus former Atty. Gen. John Ben Shepperd of Odessa and Laredo school superintendent J. W. Nixon.

House Speaker Waggoner Carr named Reps. Scott McDonald of Fort Worth, L. DeWitt Hale of Corpus Christi and Malcolm McGregor of El Paso.

Full committee will number 24. Ramsey and Carr were directed by the law to pick three legislators and three laymen. Governor Daniel and the State Board of Education are to pick six more each.

One proposal made during the session was to have the state build school buildings and lease them to districts. Numerous Texas officials have opposed federal aid for school building.

House Committees

A long list of groups has been set up by Speaker Carr to study basic state problems and report to the 56th Legislature. They include:

Legislative Budget Board—Reps. Max Smith of San Marcos, Frates S. Seeligson of San Antonio, William S. Heatly of Paducah, J. T. Ellis Jr. of Weslaco.

Legislative Council—Reps. Robert Hughes of Dallas, Wesley Roberts of Lamesa, A. R. Schwartz of Galveston, Tony Korioth of Sherman, James M. Cotten of Weatherford, R. H. Cory of Victoria, Menton J. Murray of Harlingen, Alonzo W. Jamison Jr. of Denton, Don Kennard of Fort Worth and Harold B. Parish of Taft.

State Tax Study Commission — Reps. Seeligson, Richard C. Slack of Pecos and John A. Huebner Sr. of Bay City.

Full list includes 12 committees — even a committee to study the committees.

Egg Dealers Get Licenses

State Agriculture Department is in the process of licensing some 36,000 egg producers, handlers and sellers.

New egg grading law will be in effect Oct. 22. Enforcement will begin Feb. 17, 1958.

Exempt from the license requirement are retailers who sell less than a case of eggs a week to persons other than consumers and producers who do not claim a certain grade for their eggs.

Texas Leads in Roads

Texas is out in front in the interstate highway building program with 293 miles of roads "in the mill."

These are projects which are either under construction, contracted or advertised for bids. Cost will be $86,000,000 with $76,000,000 coming from federal funds.

California is ahead of Texas in cost of projects, but second in mileage. It has 95.5 miles underway at a cost of $96,000,000.

Short Snorts

Texas prison population increased 7.5 per cent last year for a total of 9,268 persons behind bars. National average increase was 2.2 per cent. National average is 102 prisoners per 100,000 population; Texas ratio is 106 per 100,000.

"Intangible assets" evaluated for tax purposes in Texas hit an all-time high of $130,790,050 this year, reported Comptroller Robert S. Calvert. These include such things as the equipment of railroads, pipelines, bus and truck lines.

Work Progresses on New Library

Bricklayers were nearing the top of the new library addition to the elementary school while registration was underway inside the building. The library is being built to free a classroom, and the library is temporarily housed in the all-purpose room of the school.

Every woman considers herself a pretty good judge of human nature.

She can size up a newcomer, decide whether she's a climber, a sourpuss, a good worker, a snake-in-the-grass, or whatever:

"You'll like her when you really know her . . .

"She makes a wonderful first impression, but don't get too intimate . . .

"She's hard to get close to, but she's really a wonderful friend . . .

"You'll like her better if you keep her at a distance . . .

Now half the time the verdict is wrong.

Take the newcomer who moves in on some of her own cronies, for example. Plies them with gifts, invitations, and little thoughtful gestures. Sits with their children, offers to pick up the mail when they're out of town without waiting to be asked. Well, it doesn't take Everywoman long to get this character's number, does it?

And until Newcomer gets to work on her, Everywoman keeps on believing she's a calculatin' something-or-other. Later on, they may turn out to be the best of friends.

The truth is, most of us judge others mainly on hunches. Sometimes it's pure guesswork, sometimes it's hearsay. Sometimes it's a mannerism or habit that reminds us of some other person we don't like. Sometimes the diagnosis is tinged with envy. But chances are, if Everywoman is at all fair-minded, she's willing to admit she's wrong when the evidence is in.

What Everywoman had best be concerned with is how her friends — and acquaintances — label her when they're talking to newcomers . . . Hard to know? Good first impression? Wonderful friend? Keep at a distance?

REALLY LOVELY

Lieutenant (roaring with rage) — Who told you to put those flowers on the table?

Steward — The commander, sir.

Lieutenant—Pretty, aren't they?

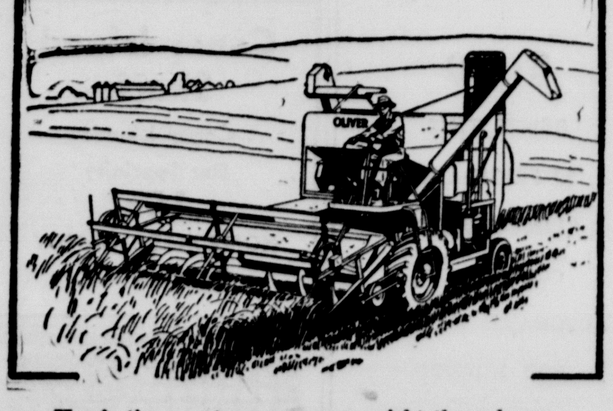
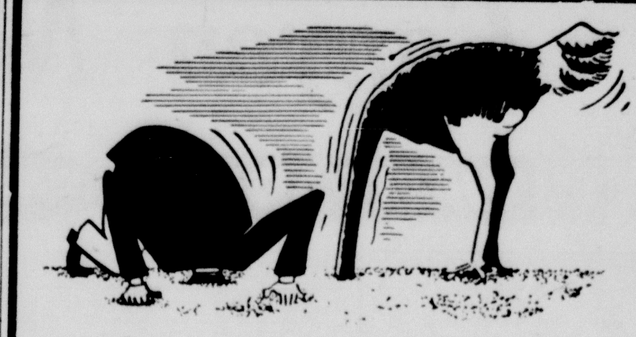
OLIVER
Self-Propelled
Saves More of Every Crop—
Grain, Beans, Corn



Here's the way to save money—right through corn harvest. Oliver's *low* cylinder makes this possible. Feeding is flat, direct. You wade through the heaviest grain stands and tallest weeds without slugging.
What's more, Oliver's self-propelled corn header is the *only* one that cuts and handles the entire corn stalk. Gone are the snapping rolls—so are the big shelling losses. You save up to 15% *more* of your corn crop.
Come in and see all the other Oliver advantages. You get the biggest separating capacity of all in a self-propelled, with 57-bushel grain tank, grain-saving semi-revolving reel. Other advantages include adjustable tread width, 6-forward-speed tractor transmission, choice of variable-speed belt or straight drive, diesel or gasoline engine.
OLIVER
If you are going to need a new combine this fall you should buy soon, for we will get a price raise in the next few days. Come by and see our Model 40.
Heath & Lawless Oliver Co.



DON'T HIDE your Insurance Problems
Bring them to us just as soon as it's convenient and let our years of experience go to work for you.

Wirt Electric

By HUGH WILLIAMSON

Outdoors business is picking up rapidly right now. When the weather begins to get a little cooler conditions will be exactly right for bass. The hunters have already started on doves, with open season on other game coming along soon.

Let's talk about fishing first. Although a lot of fishermen take home full strings in summer, it's pretty generally agreed that fall is a better time, for several reasons.

In cooler weather, fish are inclined to move around more. That takes more energy, and the fish therefore are prompted to do more feeding.

Thus, in fall, the bass are hungry and their normal sources of food are apt to be somewhat scanty. So they look with favor on your minnow or plug.

Old timers in the bass fishing game have started already, as a matter of fact. Their top-water lures dusted off and hooks sharpened, they may be seen at daylight these mornings and late afternoons, moving along slowly in their boats, tossing plugs or flies along the edges of weed bed, under willows, close to stumps and rocks.

Such a procedure is calculated to pay off, especially when that change in weather comes. Want advice? Try just before and just after the first norther.

Plenty of Birds

Dove hunters know that the supply of these birds is abundant this season. Spring rains caused the cover crops to grow well. Rains during the season will cause the birds to scatter, and cold weather will inspire them to migrate southward, but all considered, the dove hunting prospects are superb.

The same applies to quail. Not only has there been a good normal hatch, but landowners have contributed by adding to the supply.

Canyonite's Brother Dies in Plainview

Funeral services for Edgar E. May of Plainview, brother of Mrs. J. E. Mickey of Canyon, were conducted Monday morning in the Second and Beech Street Church of Christ in Plainview.

Burial was in the Plainview cemetery.

Mr. May, 74, died Saturday morning in the Plainview Hospital and Clinic. He moved to Floyd County in 1902 and to Plainview a few years later.

In addition to Mrs. Mickey, survivors include three brothers and four other sisters.

Mrs. Blanche Savage and Mrs. Sue Langford of Fort Worth visited last weekend in the homes of Mrs. Florence Stephenson and the Dick Barretts.

Mike and Pat Wallace of Petersburg spent last week with their grandparents, Mr. and Mrs. J. A. Edwards.

Pastor Announces Hours for Services

The First Christian Church will return to the regular Sunday time schedule Sunday morning with the Bible School at 9:45 a. m. and the worship and communion services at 10:50 a. m., according to the Rev. Gerald Findley, minister.

A special series of evening services is to begin Sept. 22 at 7:30 p. m.

Sept. 19 Is First P-TA Meeting

The executive committee of the Canyon Parent-Teachers Association met Thursday evening at the home of the Canyon P-TA president, Mrs. James P. Cornette, and presented the tentative program for 1957-58. The committee set the first general meeting date for Sept. 19 at 7:30 p. m. in the Elementary School auditorium.

Mr. and Mrs. Paul Aldridge, Nancy and Gary, Mr. and Mrs. Curtis Samples and Pamela and Mrs. C. W. Samples vacationed last week in Trinidad and Colorado Springs, Colo. They traveled over Royal Gorge, went through the Garden of the Gods, Seven Falls, visited Pikes Peak and took a tour through the Canon City State Prison. Enroute home they visited the C. E. Heads in LaJunta, Colo.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS OF THE 18TH CONGRESSIONAL DISTRICT

Examining Bureaucracy

A special subcommittee of the House Committee on Interstate and Foreign Commerce has been set up during this session of Congress for the purpose of investigating six regulatory commissions. These commissions are as follows:

1. Intertate Commerce Commission, created in 1887
2. Federal Trade Commission, created in 1914
3. Federal Power Commission, created in 1930
4. Federal Communications Commission, created in 1934
5. Securities and Exchange Commission, created in 1934
6. Civil Aeronautics Board, created in 1938.

These were originally authorized by the Congress as independent regulatory agencies, and although they may appear unrelated in name and in specific purpose, it is pointed out they are very closely related under the common theme of regulatory authority. Two have jurisdiction over carriers (railroads, busses, trucks, water carriers, pipelines) and are under the Interstate Commerce Commission; air carriers are under the Civil Aeronautics Board.

Two of these agencies regulate utilities—electrical and gas being under the Federal Power Commission; broadcasting, telephone and telegraph are under the Federal Communications Commission.

One agency regulates financial activities, such as security exchanges, security issues and holding companies. This is the Security and Exchange Commission.

One agency regulates a special field in industry. It is the Federal Trade Commission which has jurisdiction over trade practices with reference to whether or not they are fair or unfair.

The Subcommittee is called the Legislative Oversight Committee, and it has a tremendous job to do. These agencies were intended to be arms of the Congress rather than subject to the dictates of the Executive Branch of this government. In other words, they were supposed to be independent agencies to carry out in a fair, unbiased and unprejudiced manner the intent of the Congress in regulatory laws.

Regulation, itself, has always been abhorrent to the American, although it is readily recognized that the complexity of our economy requires certain limited regulations in various fields. Under the circumstances, it is of vital importance that the powers vested in these agencies and bureaus be exercised with the greatest of care to insure fairness and equity to all which may fall within their jurisdiction.

Many have felt that some, if not all, of these agencies have been dominated by the Executive Branch of the government and have fallen into a pattern of yielding to political expediency rather than adhering to the basic concepts upon which they were created.

Whether or not such suspicions are true is a question to be answered by the Committee on Legislative Oversight. What the people want is the truth, the whole truth and nothing but the truth on the subject.

A Bridge or Tunnel

Recently, Congress spent one entire day arguing whether or not a tunnel or a bridge should be built across the Potomac River in order to relieve the increasing traffic problems in this area. Some Members were for the tunnel, while others were for the bridge.

Some wanted a fixed span bridge, while others wanted a draw bridge. One Member suggested the only solution to the problem would be to build a tunnel high enough so that any ship could pass under it—in other words, a high bridge tunnel.

Although he was trying to be facetious, many of the Members apparently took him seriously, because at the end of the day after much fanfare, trumpet blowing and oratory, the House of Representatives refused to approve any of the proposals. It turned out to be much ado about nothing, because the authority already exists for the Commissioners of the District of Columbia to build another bridge across the Potomac River.

The great need for such a span is evidenced by the terrible traffic jams which occur each day. I agree that a bridge should be built, but I vigorously disagree with many of the proponents of the new span as to who should pay for it.

For some reason which seems to be of long standing, it appears that whenever the District of Columbia needs anything, a large and apparently very effective group in the District feel the entire cost should be borne by the federal government.

This is so, whether or not it is for the building of a bridge across the Potomac River or for the restoration of an old stone house in Georgetown, the history of which has never yet been determined. It was this Old Stone House that I fought so hard two years ago, because the investment of federal funds would approximate $250,000. To date, I have asked 126 taxi drivers, about 240 Members of Congress, at least 400 citizens of the District of Columbia, as well as numerous strangers, where I could find the Old Stone House. The score, to date, is 4 taxi drivers, about 10 Members of Congress, about 15 citizens of the District, and no strangers who knew of its existence.

It is my opinion that the federal government is no more obligated to build a bridge across the Potomac between the District of Columbia and Virginia, or to restore an old stone house, simply because it is located in Georgetown, than it is obligated to build a bridge across the Canadian River or to restore an old stone house in any town in Texas.

Randall County Sheriff L. S. (Slim) Johnston and Mrs. Johnston are in the Nation's Capital where Sheriff Johnston is attending the National Academy of the F. B. I.

Turkey, Pears On September List

COLLEGE STATION — Turkeys will be the big food value in meat departments for a third successive month, the Agricultural Marketing Service reports, in announcing its September plentiful foods list. Supplies are ample and prices are expected to remain low.

Bartlett pears are a co-feature on the list, as a larger than average crop is expected. Canned pears will also be plentiful.

Other September plentiful listings suitable for main dish family meals will include broilers and fryers and fresh and frozen fish. These plentifuls are the result of high broiler and fryer production and the good catches following the height of the fishing season.

Milk, with a back to school emphasis on good nutrition, is a September plentiful.

Ellis GOOD! BETTER! BEST! TAMALES

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: Jack Bryant Battenfield, Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable 47th Judicial District Court of Randall County at the Courthouse thereof, in Canyon, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th day of October, A. D. 1957, to Plaintiff's Petition filed in said Court, on the 28th day of June, A. D. 1957, in this Cause, numbered 3364 on the Docket of said Court and styled MARY FRANCES EVANS, A PERSON OF UNSOUND MIND, BY NEXT FRIEND GENE McGLASSON, JR., VS. TEXIE DOLLY SCHAEFFER, NEE EVANS AND HUSBAND, GEORGE SCHAEFFER, SILAS ALFRED EVANS, MITTIE WANN, NEE EVANS, A WIDOW, LIZZIE WESLEY, NEE EVANS, AND HUSBAND, EARL WESLEY, WILLIE ROBERTS, NEE EVANS, AND HUSBAND, JAMES ROBERTS, JOE REEVES EVANS, JR., A MINOR, AND STELLA MAE LEE AS THE GUARDIAN OF JOE REEVES EVANS, JR., A MINOR, AND STELLA MAE LEE INDIVIDUALLY, AND HUSBAND, LOUIS LEE, AND GRACE PAULINE BATTENFIELD, NEE EVANS, AND HUSBAND, JACK BRYANT BATTENFIELD.

A brief statement of the nature of this suit is as follows, to-wit:

A SUIT FOR PARTITION OF LAND or APPOINTMENT OF RECEIVER AND SALE OF LAND, said land being all of Survey 190 (Section) Certificate 0/240, Block M-9, John H. Gibson Survey, located in Swisher, Randall and Armstrong Counties of the State of Texas, consisting of 653.2 acres covered by a Patent dated the 12th day of March, 1953, in favor of H. C. Evans, as more fully shown by Plaintiff's Petition on file in this suit.

If this Citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this Writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said Court at Canyon, Texas, this the 19th day of August, A. D. 1957.

Ruby Lee Hales In Milk Contest

Ruby Lee Hales has been selected to represent the Panhandle in the forthcoming regional eliminations for the title of Texas Dairy Princess. The state contest will be held Sept. 18 and 19 in Austin.

Miss Hales, the daughter of Mr. and Mrs. H. B. Hales of Amarillo, attended elementary school in Canyon and is presently a junior at Texas Tech, where she is majoring in home economics.

Richmond and Joe V. Hales, both of Canyon, and Jones Hales of Umbarger are her brothers. Miss Hales is being sponsored by the Tri-State Milk Producers Association.

Findley Attends Ecumenical Institute

The Rev. Gerald C. Findley, pastor of the First Christian Church, attended the Southwest Ecumenical Institute held at Perkins Theological Seminary at Southern Methodist University Aug. 26-30.

Speakers for the institute included Dr. Martin Niemoeller, leader of the Evangelical Church in Germany, Dr. Leslie Cooke, associate general secretary of the World Council of Churches, and the Rev. Russell Chandran, principal of the United Theological Seminary, Bangalore, India.

More than 300 ministers and lay leaders from 12 denominations attended the institute and participated in 10 different workshops on issues confronting the churches.

Weekend visitors in the O. B. Vaughan home were Mr. and Mrs. R. L. Kennedy, sister and brother-in-law of Mrs. Vaughan, and a niece, Mrs. Harvey Hudgins, all of Bellview.

Mrs. K. E. Hines recently went to Wichita, Kan., to be with her father, Charles A. Meier, who had surgery at a hospital in Wichita.

Births

Mr. and Mrs. Phillip Bruce Dye of Amarillo are parents of a girl born Aug. 29.

It's a boy for Mr. and Mrs. R. F. Brockman of Canyon, born Aug. 31.

Coaches Give Poop To Canyon Rotary

Coaching staff of the Canyon High School Eagles outlined prospects for the 1957 season for the Rotary Club Tuesday.

Head Coach Bill Davis and his assistants Lynn Hulsey and Joe Brooks, described workouts, listed players and weight and type of plays to be used.

"We'll give a good account of ourselves," Coach Davis said. "Whether we win or lose, is not important, but the attitudes toward life we can teach our boys. We want them to be champions, not only in football, but in everything they do."

Guests included James Scott, guest of Mitchell Jones, Elroy Miller, guest of E. Kancher, and Don Price, guest of J. D. Barker.

Visiting Rotarians were E. Kancher and Ed Morris of Amarillo, Bob Lindsey Sr. of Borger, and Bob Lawrence, Harry Schulz and Joe Nisbett, all of Dalhart.

Hosea Foster presented the program. He is program chairman for Rotary for September.

New Texaco Station Opens in Canyon

A new service station has opened for business in Canyon with the opening of the Jack Eddings Texaco station at 110 23rd Street.

Eddings, who came to Canyon from Clarendon, is experienced in service station work and expects to give first class service.

Dr. Harrison - -

and has been sponsor of WT's Student Government since 1952.

A native of Bowling Green, Ky., Dr. Harrison earned his B.A. degree at Western Kentucky State College and his M.A. and Ph.D. degrees at New York University. He was formerly an administrative assistant at NYU's Foreign Student Center, where he lectured on the principles of American government and was instructor in history and assistant to the dean at Washington Square College of NYU.

Dr. Harrison served in the Army during World War II, and was in combat in Europe for 11 months. A member of the American Academy of Political Science and other historical and political science organizations, Dr. Harrison is a prolific researcher and author.

His articles have appeared in such journals as the Filson Club History Quarterly of Kentucky, Pennsylvania Magazine of History and Biography, Virginia Magazine of History and Biography, South Carolina Historical and Geneological Magazine, Journal of Politics, Journal of Southern History, and the Essex Historical Collections.

Married, Dr. Harrison is a member of Canyon's Rotary Club. He is listed in such biographical directories as the Directory of American Scholars.

Fairview Breezes

We received .70 moisture Wednesday evening and we were very grateful.

Brother Bill Hall delivered two fine sermons for us Sunday. You who missed the services missed a treat.

We are sorry to learn of the death of Roy Wesley. He died of a heart attack and was buried in Breckenridge Monday. He was a son of John and Mattie Wesley, and a grandson of Uncle Jim and Aunt Annie Wesley, now deceased.

Mrs. Lizzie Wesley visited several days the past week with her mother, Mrs. M. F. Evans.

Mrs. George Schaeffer has been visiting in Pennsylvania. George Schaeffer Sr. is visiting his sons, Dean and George Wayne, and their families in Germany.

Mr. and Mrs. J. W. Wesley accompanied their daughter and son-in-law and their children on a fishing trip to the New Mexico mountains the past week. Fishing wasn't any good as it rained every day and night while they were there, but they enjoyed the vacation.

Mr. and Mrs. H. H. Shipman and children attended the Shipman reunion at Seymour over the weekend.

Mr. and Mrs. E. W. Schaeffer, Mr. and Mrs. Frank Rogers, Mr. and Mrs. E. M. Wilson and Darrell, Mr. and Mrs. Charles Wilson and children, Vickie, Roger and Ernest and C. P. Rogers all attended the wedding of Charlene Barnard in Amarillo Saturday evening.

Visitors in the J. W. Wesley home Sunday were Jim Carr of Canyon, Arlene Wesley and Jo Jo Bryan and two friends, all from Plainview.

Mr. and Mrs. J. D. Prossor and boys visited Aug. 26 in the G. E. Wesley home.

Sunday School officers were elected Sunday. H. H. Shipman was elected superintendent; John Patterson, assistant; Nan Earyle Shipman, pianist; Frank Rogers, song leader; Lavena Amerson, assistant; John Patterson, adult teacher; and Inez Shipman, secretary.

Elected delegates to the district meeting at Tulia Sept. 17 were Mr. and Mrs. G. E. Wesley and Lavena Amerson.

Brother and Mrs. Bill Hall and children visited Sunday in the G. E. Wesley home.

Mrs. Woodrow Wesley and son, C. R., were having their eyes checked in Amarillo Saturday. Mrs. Letha Patterson accompanied them.

The Happy school started Aug. 27. They have been having some difficulty finding bus drivers. Gordon Foster volunteered to help them until they can get someone else.

Mrs. Ella Hext visited last weekend in the Woodrow Wesley home.

Bobbie Boyd of Portales visited over the weekend in the Woodrow Wesley home.

Mrs. Virgia Cook and daughter, Velma, visited a couple of days two weeks ago with the Woodrow Wesley family. The Cooks now reside in Washington State where Velma is a teacher.

Lavena Amerson was in Tulia on business Friday.

Mr. and Mrs. I. W. (Bozo) Brown and girls visited Sunday evening with the J. W. Wesleys.

New Deputy Works For Randall County

A new deputy has gone to work for Randall County, according to Chief Deputy L. D. Caldwell.

Charles E. Gross, 26, of 4000 Harrison, was hired by Sheriff L. S. Johnston, Caldwell said. Gross replaces Bill Beal, who resigned recently, and will be stationed in Amarillo.

Prior to his beginning with Randall County, Gross has been employed as an instructor at Amarillo Air Force Base.

Stork Specials

Mr. and Mrs. Alton Wallace of Petersburg are the parents of a boy born Aug. 21. Mrs. Wallace is the former Wanda Jean Edwards.

BIRTH ANNOUNCEMENT

The birth of a new car, the Edsel, is announced by Ford Motor Company of Dearborn, Michigan. You are cordially invited to see this newest addition to the Ford Family of Fine Cars at your nearest Edsel dealer.

Cpl. William C. Rice of Hawaii was called home recently to be at the bedside of his father, W. L. Rice, who is seriously ill in the Veterans Hospital in Amarillo.

LaRue Davis left Sunday for Galveston to teach in the Ball High School.

Brian Tolliver Enrolls at Rice

Dr. and Mrs. Crannell Tolliver returned Monday from Houston where they had taken their son, Brian, to enter Rice Institute. Brian, who was the valedictorian of the 1957 class of Canyon High School, was awarded a scholarship at Rice to study electrical engineering.

Freshmen at Rice Institute are given an intensive 10-day refresher course in mathematics prior to the opening of the regular college term.

Dr. and Mrs. Tolliver left this morning by train to spend a week in San Francisco with Mrs. Tolliver's brother and family before the West Texas State College fall term begins.

Ann Moore, Larry Griffin Marry In Double-Ring Service at Chapel

Ann Moore, daughter of Mrs. Florene Moore and the late Floyd Moore, became the bride of Larry Griffin, son of Mr. and Mrs. L. S. Griffin of Earth, Friday night in a double-ring ceremony at the Joseph A. Hill Chapel read by the Rev. Doyle Ragle, minister of the First Methodist Church.

The altar, draped with white satin with garlands of fern fronds and clusters of white and blue asters, held gold vases filled with white gladioli. Seven branch candelabra and large floor baskets flanked the altar to complete the background.

Organist, Marcus Robinson of Happy, played "Indian Love Call," "Ah! Sweet Mystery of Life," "Liebestraum," "Nocturne in E Flat Major," "Claire de Lune" as a prelude. She played "I Love You Truly" as the mothers entered and also accompanied Donnis Plunk of Amarillo, who sang "Because," "Oh Promise Me" and "The Lord's Prayer."

The attendants, Virginia Leake, maid-of-honor, Mrs. Clyde Root, matron-of-honor, and Charlotte Crain, bridesmaid, were attired in identical powder blue, silk dresses with scoop necklines and bows at the back of the waist which accented the fullness in the back. Their bouquets were cascade arrangements of blue and white King asters.

Best man was Danny Becker of Lubbock, and groomsmen were Jack Parker of Hereford and Doyle Wooley of Hobbs, N. M. Serving as ushers were James Hinkley of Pampa and Harold Jordon of Olton.

Given in marriage by Guy Allen of Kress, the bride wore a floor length gown of white chantilly lace over tulle styled with long tapered sleeves, a sabrina neckline and a full, bouffant skirt with a torso fitted waist. The gown was trimmed with butterfly sequins and seed pearls and her veil was a matching bonnet of lace trimmed with sequins and pearls. She carried a white Rainbow Bible topped with a white cattaleya orchid and showered with a cascade of white stephanotis and white satin streamers tied in love knots.

Mrs. Moore, mother of the bride, wore a blue sheath linen dress with a blue lace tunic duster and matching blue accessories. Her corsage was of white glamelias.

Mother of the bridegroom, Mrs. Griffin, wore an amber sheath dress with brown and beige accessories. Her corsage was of yellow glamelias.

A reception following the ceremony at the home of the bride's mother feted the bridal party. The table was laid with a white linen, drawn-work cloth centered with a replica of a bride's bouquet made of tufts of blue net and ribbons embedded with lilies-of-the-valley on a star foam pedastal.

In the house party were Nelda Coffee, Betty Kay Gibbs, Sue Carroll of Amarillo, Mrs. Iverson Leake, Mrs. Bailie McCormick, Mrs. R. A. Hodges, Mrs. Newton Crain, Mrs. Otto Samuelson, Mrs. W. R. Crow and Mrs. F. A. Pierce. Diane Prichard played piano selections during the reception, and at the guest book were Mrs. Danny Becker of Lubbock and Mrs. Mary Scott of Wellington.

For the wedding trip to Las Vegas, Nev., the bride traveled in a blue grey sheath dress and jacket made of silk with pink and gray accessories and a corsage of pink sweetheart rosebuds. After Sept. 6, the couple will be at home at 2604 Sixth Avenue, Apartment 4.

Mrs. Griffin, a graduate of Canyon High School, is a senior at West Texas State College where she is a member of Delta Zeta Chi Sorority and Phi Gamma Nu, business sorority.

The bridegroom graduated from Springlake High School and is a junior at West Texas State College. After graduation from West Texas he will enter medical school at Southwestern in Dallas.

Cherry Blossoms

BY DOVIE CHERRY

That was a mighty fine community watermelon feed Monday afternoon. And those were the biggest watermelons I've ever seen. They surely weren't the kind you steal out of watermelon patches. You'd never be able to pick one of those up and run with it.

Everybody, and a lot of everybodys at that, seemed to have a good time sitting on the grass chatting and getting all sticky, (what's a watermelon feed if you don't get all sticky), or getting in a watermelon fight and getting really sticky or teasing each other about what a watermelon glutton each other was.

Mighty sociable time.

☆ ☆ ☆

September has arrived and with it a rush of activity. School started, the first high school football game is Friday night, the P-TA has its first meeting Sept. 19, clubs dismissing for this summer are resuming activity.

And speaking of clubs, the Texas federated clubs in Canyon are to be honored this Tuesday night with a visit by the Texas Federation of Women's Clubs President, Mrs. A. J. House.

There's to be a dinner Tuesday night at 7:30 p. m. in the West Texas State College cafeteria and Mrs. House is to be the guest speaker.

Don't be surprised if she's not wearing a corsage. The lack of one is her own request. She has requested that the money that would have been spent on a corsage be donated to the Dorothy H. Vieman Oriental Scholarship Fund, scholarship fund for Korean women.

The scholarship fund was originated by Mrs. House and is named after her late daughter who lived in Korea and traveled in the Orient. Mrs. House has requested that any gifts or flowers which persons and clubs wish to give her be converted into a donation to the fund.

Mrs. House, beyond doubt, is one of the best traveled club women in Texas. She has been in Hawaii, Philippines, Japan, China, Egypt, Monaco, Capri, Switzerland, Norway, Sweden and Denmark.

According to the May-June issue of The Texas Clubwoman, Mrs. House has visited with ambassadors in all the Central American countries and Europe. She has also played ancient church organs in Italy and had an audition with the Pope.

The magazine says Mrs. House, "Has drunk more punch and tea and shook more hands than most." We can imagine so.

☆ ☆ ☆

Unless appetites have changed since I went to school, there's nothing bigger than an after-school appetite and nothing more discouraging than an empty cookie jar.

Here is a recipe from Mrs. Clarence E. Thompson for a bar cookie which would make a chewy, toothsome morsel for an afternoon snack.

Golden Bars

⅔ cup shortening
2 cups brown sugar, firmly packed
2 eggs, well beaten
1 teaspoon vanilla extract
¾ cup chopped walnuts or pecans
1½ cups sifted all-purpose flour
2 teaspoons baking powder
¼ teaspoon salt
¾ cup coconut (optional)

Melt the shortening in a sauce pan. To the melted shortening add the remaining ingredients first sifting together the flour, baking powder and salt. Spread the mixture in a greased pan 12"x8"x1." Bake in 350 degree oven 30 to 35 minutes. Cut into bars while still warm.

A quote from a mother whose child has just had a taste of a few days of first grade. "He surely thinks I'm dumb."

Books Are Donated To Umbarger School

A donation of several thousand dollars worth of books to the Umbarger School library by the late W. H. Upchurch was announced recently at the Umbarger P-TA meeting by Raymond Batenhorst.

The donation includes, according to Mrs. W. P. Janssen, publicity chairman, "some of the great classics, including books by O. Henry." The addition to the library, which will be called the W. H. Upchurch Addition, includes the National Geographic Magazine, complete from the year 1907.

The subscription to the magazine is to be continued in the school's name until Mrs. Upchurch's death.

"Completing the gift is a complete set of the Encyclopedia Brittanica, a large unabridged dictionary, and a World Book. The entire collection will be played in a special division of the high school library," Mrs. Janssen said.

Other business at the meeting included formulating plans for the school children for this school year, voting on projects for the organization and appointment of committee chairmen.

Two Canyonites Receive Degrees

Dalton Teague and Ralph Harbin received graduate degrees at Texas Tech in the summer commencement last week.

Teague's degree was the master of arts with a major in government, while Harbin's was the master of science in agriculture with a major in animal husbandry.

There is more water than land on the earth's surface.

Hall County Picnic Scheduled Sept. 15

The third annual Hall County Picnic is set for Sept. 15 in the Memphis City Park. The picnic committee expects between 3000 and 5000 at the event.

Those who attend are asked to take a basket lunch.

The Rev. Gerald Findley and family vacationed recently in Denver, Colo., and in Colorado and visited with relatives and friends.

Mr. and Mrs. Robert Young of Lubbock visited during the Labor Day weekend with Mr. and Mrs. Clyde McElroy, cousins, and with Mrs. McElroy's sisters, Katherine Johnson and Mrs. Nell Riggle, of Los Angeles, Calif., house guests at the McElroy home.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Last week technicians of the Soil Conservation Service assisting the Randall-Potter Soil Conservation District ran contour lines on Ewing L. Mathis farm southwest of Canyon. Pipelines were checked for W. J. Wooten Jr. and Donald Olson. Other farmers were also contacted during the week by the local S.C.S.

At the present time terraces are being built by W. T. Smoot Sr. and Frank Foliart.

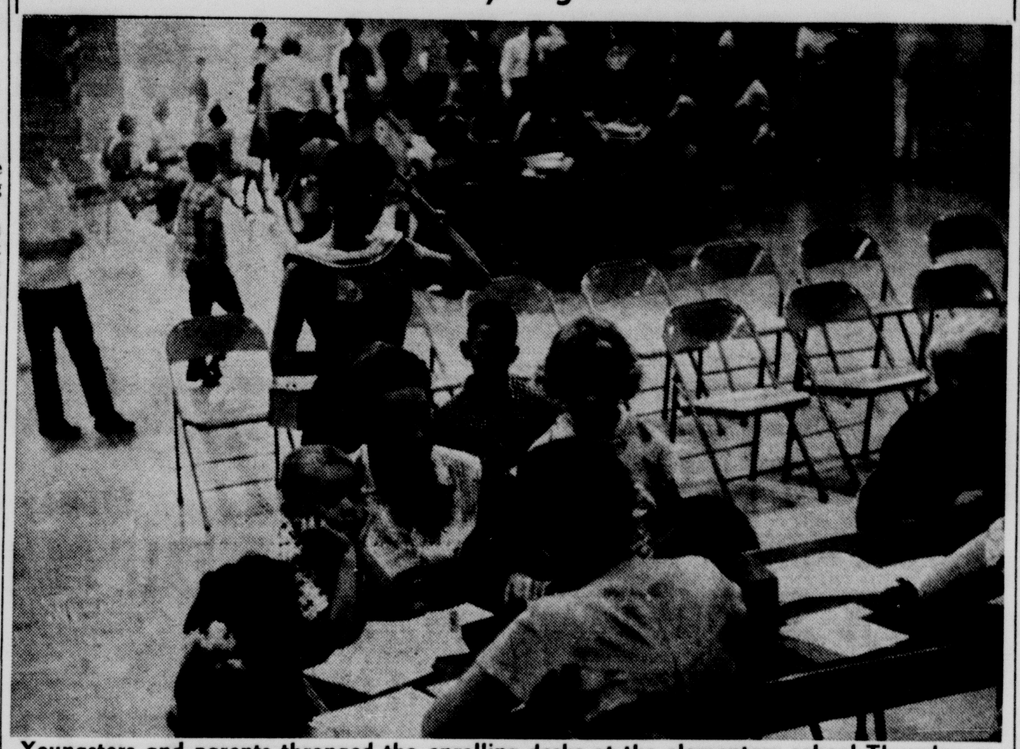
Now is the time to start thinking about wind erosion for the coming year. On summer fallow land the land should be stubble mulched. Stubble mulch is the practice of leaving the stubble from the previous crop on the land. This aids in water penetration and also helps keep the soil in place.

Vetch or Austrian winter peas are legumes that can be planted for cover now. These legumes will add organic matter and nitrogen to your soil. Increased yields have been reported for the crop following one of the above legumes.

Waterways should be seeded to grass if you have adequate cover. Double seeding rates should be used on waterways. A good grass to use on waterways would be Western wheat grass.

Recent guests in the W. G. Boston home were their two sons and families, Mr. and Mrs. John Boston and son, Jimmy, of Roscoe and Mr. and Mrs. W. G. Boston and family of Dallas.

Elementary Registration



Youngsters and parents thronged the enrolling desks at the elementary school Thursday as a record number of pupils prepared to go to school in the primary grades. The first grade table is in the background, with the largest group of children ever to enter school here being registered.

Mr. and Mrs. J. D. Byrd and son, Billy, returned home last Friday from a two weeks vacation. During their vacation they toured Grand Canyon, Yosemite, Disneyland, Juarez, Carlsbad Caverns and visited in Fresno, Calif., with Mr. and Mrs. Pete Pitman.

Wayside News

The Wayside School opened Friday with an enrollment of 20 and several more are to start soon. There was no school Monday.

The Rev. Merle Weathers filled his regular appointment Sunday morning and then went to Vigo Park to attend the revival.

Mrs. Etta Gillham of Greenville and Mrs. Erving McGehee and her little granddaughter of Amarillo visited with Charlotte Adams Tuesday. They also visited in the M. L. Gillham home.

Mrs. Macie Melms and Nola Mac Stockett of Claude were visiting relatives in the Wayside community Sunday afternoon.

Mr. and Mrs. Robert Adams, Jim and Less are moving to Canyon so that the children may attend school there.

The Aaron Cummins family have moved to a farm near Canyon and the A. L. Clayton Sr. family of Happy is moving in the home just vacated by the Cummins.

Mrs. J. R. Kennedy and Johnny Lee of Vigo Park visited in the Charles Kennedy home Friday evening. Richard Kennedy returned home with them to spend the night.

Mr. and Mrs. Oren Hefner and girls of Fredrick, Okla., spent last weekend in the Bill Heisler home. Mrs. Heisler and Mrs. Hefner are sisters.

Mrs. Willis Fisher is slowly improving in Neblett Hospital.

Mrs. Doreen Modisette, Royce, Marian and Fay, Mrs. Robert Adams and Charlotte Adams were Tulia callers Thursday.

Robert Kennedy goes to school at Happy this year in order to be able to play on the football team.

Patsy Schrib will go to school in Canyon this year and will stay in the J. O. Parker home.

Mr. and Mrs. W. R. Franklin visited last Sunday evening in Happy in the Jim Sluder home, the Marvin Sluder home and the M. E. Counterman home.

Mr. and Mrs. George Satterfield and children attended the funeral of the Satterfield's grandchild in Plainview one day last week. The nine month old child drowned in the bathtub.

Mr. and Mrs. Leroy Roberts, Princess and Deltah have moved to their new home in Tulia. Mr. Roberts will be a social science teacher and Mrs. Roberts will teach the third grade. Princess will be a beginner in school.

TFWC President To Visit Canyon Clubs

Mrs. A. J. House, Texas Federation of Women's Clubs president, is to be guest speaker and honoree Tuesday evening at a dinner to be attended by members of the Junior Woman's Book Club, the Woman's Book Club and the Sue Hite Club.

The dinner, which is to begin at 7:30 p. m., will be in the West Texas State College cafeteria, new west addition. Mrs. Lee Foster, Woman's Book Club, is to introduce Mrs. House and Mrs. Hud Prichard, Sue Hite Club, is to be mistress of ceremonies.

Another special guest at the dinner will be Mrs. Robert R. Lindsey, Seventh District president from Borger.

Reservations for the dinner must be made by Friday night. Each plate is priced at $1.65. Woman's Book Club members may make reservations with Mrs. T. B. McCarter; Junior Woman's Book Club members with Mrs. T. S. Stevenson Jr., and Sue Hite Club members with Mrs. David Kaplan, Mrs. Hud Prichard or Mrs. Sidney Burgess.

Mrs. Virgil Henson is general chairman for the dinner.

New Fishing, Hunting Licenses Needed by Sportsmen in Texas

Starting last Sunday, practically every fisherman in Texas between the ages of 17 and 65 must have a license in order to fish.

These are the instances when fishermen do not need a license: When fishing upon property he owns or where he lives; when fishing in the county of his residence with a trotline, throwline or ordinary pole and line having no reel or other winding device attached.

The new licenses are on sale all over the state from wardens, county clerks and most sporting goods dealers. The fishing license this year is $2.15 and hunting licenses cost $3.15. Fishing licenses are required for salt water fishing for the first time this year.

Mr. and Mrs. A. B. Berry visited Sunday night and Monday in Gruver with their daughter and family, the Richard Hefleys.

Mr. and Mrs. John Lill spent the weekend in Abilene visiting their daughter and family, the Robert Martins.

"July or February...

I have garden-fresh fruits and vegetables in my ELECTRIC home freezer, all the time!"
says MRS. ROY QUALLS OF GUYMON, OKLA.

Last year Mrs. Qualls froze over 300 pints of garden-fresh vegetables which, she says, "... really means a great savings in my family food budget all year." In addition to buying meats in season, and in quantity, for additional freezer savings, Mrs. Qualls passes on this tip, "I do a considerable amount of baking, especially biscuits, usually 10 to 12 dozen at a time. I chill them, break them apart, wrap in wax paper and freeze them in my freezer. Then, when unexpected guests arrive, I have hot biscuits in a matter of minutes."

chop more tonnage
with less power...with a
McCormick® 20-C Field Harvester

Stop in and we'll show you why you can harvest your forage crops at up to 25 tons per hour with a McCormick 20-C field harvester. See the large, flywheel type cutterhead that provides a steady cutting action through the heaviest crops with a minimum of power. We'll be glad to show you all the features that enable the 20-C to harvest the heaviest crops without plugging.

We'll also show you how you can switch from row-crop to hay pick-up harvesting in minutes!

See us about a dual-purpose McCormick 20-C field harvester the next time you're in town.
